

### Description & Features

- PVC body
- Process connection with thread for direct mounting, but also suitable for bonding (PVC) or welding (PVDF)

### Applications

- Process instrumentation of chemical plants
- Plating industry
- Waste water treatment
- Fertiliser industry

### Specifications

- **House Material**  
PVC
- **Diaphragm Material**  
PTFE
- **Minimum operating pressure range**  
0...1 bar
- **Maximum operating pressure range**  
0...16 bar
- **Process connection**  
G1/2"B, 1/2" NPT, M20X1.5
- **Service Conditions**  
Pressure Range: 1...16 bar for house material PVC and diaphragm material PTFE.  
-1...0 bar or -1...1 bar for house material PVC and diaphragm material 316L  
Temperature Range: -20...120°C

### Ordering Code D10 Series
